Risk Management

Keeping you compliant, protecting your peace of mind

A proactive approach to risk management has many benefits.

Here at KTIB we know what insurance companies are looking for. We have experience of what might happen. You can utilise our experience to **minimise your risk, decrease your insurance premiums and reduce the number of incidents** within your company.

Your responsibilities under the 'Health and Safety at Work Act' to manage risk and provide a safe system of work are complex and increasing. Additionally, directors and decision makers within companies can be held personally liable for their wrong doings or innocent oversights.

"KTIB are a key supplier of risk management services to us. They play a significant role in developing systems to monitor, analyse and manage our transit claims procedures and data"

Palletforce Ltd

Standards of security, alarm suitability, trade activities and a range of other factors are key to the arrangement and management of insurance.

More increasingly insurers are raising the bar in terms of minimum security, compliance and business practice, setting their acceptability criteria at high levels.

Our extensive experience supports you and provides professional advice as an integral part of our service. We are then able to help you maximise the financial support and resources provided by the insurance market: The best working practices attract the lowest premiums because they represent the lowest risk.

In order to minimise your risk we would discuss:

- Risk retention levels (e.g. excess, franchise)
- Fire risk assessments
- General health and safety risk assessments and policies
- Disaster recovery planning
- Premises and site security (e.g. physical security, alarms)
- Vehicle and fleet management
- Electrical safety (Portable appliance testing, mains wiring)
- Plant safety (e.g. PUWER, LOLER, PSSR)
- Energy compliance regulations

Through a combination of our own in-house expertise, the services of trusted professionals and insurer resources we are able to provide a complete solution for all your risk management needs. Rest assured. You are in safe hands with KTIB.
